GICOTTE EXPLAINS IT

Cincinnati, O., Oct. 2.—Eddie Cicotte, the master pitcher of the American league, who was driven out of the opening game of the world series yesterday under a broadside of hits, today expressed confidence in his ability to come back at the Reds whenever called on by Manager Kid Gleason.

Cicotte, with nearly thirty victories to his credit this season, is carrying the hopes of the Chicago fans on his shoulders and they have every confidence that he will pitch the Sox to victory in two and possibly three of the remaining games. The master of the "shine" and "knuckle" ball declared today that he was completely unmoved when he hit Rath, the first man up in the game yesterday, and lost all control of the ball in the fourth inning.

King Albert's Message to the People of America

New York, Oct. 2.—King Albert of Belgium, on landing at Hoboken today, delivered the following message to the American people:

"At the moment of setting foot on American soil, the king of Belgium desires to express to the people of the United States the great pleasure with which the queen and he are coming to its shores at the invitation of President Wilson.

"The king brings to this nation of friends testimony of the profound sentiments of gratitude of his countrymen for the powerful aid, moral and material, which America gave to them in the course of the war. The name of the Commission for the Relief of Belgium will live eternally in the memory of Belgians.

"The king rejoices in the prospect of visiting the cities whose hearts fought with the cities of Belgium and whose continued sacrifices knew no measure. He is happy that he will meet the eminent citizens, who, animated by the highest thoughts, placed themselves at the head of organizations for relieving the suffering of war.

"The American people, their splendid army and their courageous navy nobly and powerfully served a great ideal."

FOR LOVE AND FIRE

Cloud County Woman Must Serve Time in Jail.

Convicted of Burning Sweetheart's Alfalfa Stacks.

SAID TO HAVE SWORN REVENGE

Quarrel With Frank Keppel, Her Former Lover.

Mrs. Nettie Bender Is Mother of Two Children.

Mrs. Nettie Bender was convicted today of fourth degree arson by a Cloud county jury, according to information received in the state fire marshal's office. The case was one of the most sensational tried since the fire marshal's department was created.

The Cloud county woman was charged with burning alfalfa stacks belonging to Frank Keppel, a former sweetheart. Keppel and the woman had kept company for a considerable period. Some time ago they quarreled and the woman was declared to have sworn revenge. Her revenge was declared to have been in the burning of the alfalfa stacks.

Mother of Two Children.
Mrs. Bender lives on a farm near Concordia. Her car was trailed from a point near the burned stacks to her own home. She denied starting the fire when she went to the stand in her own behalf.

The woman, who is the mother of two children, will receive an indeterminate prison sentence of one to four years.

W. A. Elatum, deputy state fire marshal, was in charge of the case, and secured the evidence which resulted in a conviction today by a Cloud county jury.

STRIKE A FAILURE?

English Government Optimistic—Important Parleys on Today.

Distributing Mail by Airplane Thruout the Kingdom.

London, Oct. 2.—Upon the result of three conferences today hangs the question of industrial war or peace in Great Britain.

Representatives of the railway men assembled at Unity House at 11 a. m. to consult before their meeting with Lloyd George at noon, when negotiations aiming at a settlement are to be resumed.

While the railway men were in conference, the Transport Workers' Federation continued its meeting awaiting the result of the parley between Lloyd George and the striking delegates.

If negotiations fail, it is expected the transport workers immediately will join the striking railway employees.

In the meantime industrial stagnation prevails in Great Britain. As a result of the strike, a host of other industries, 650,000 men are idle besides the railroad employees. This number comprises 400,000 miners, 150,000 iron and steel workers, 65,000 tin plate workers, 20,000 textile operatives, 40,000 dock hands and 10,000 engineers.

In government circles, it was declared today that the railway men's return to the conference room after Lloyd George's statement that he would be prepared to meet them was tantamount to a confession of the strike's failure.

The problem now is to find a solution which will enable the strike leaders to "save their face."

The ploy is optimistic over the prospect for a settlement. The ministry of transport announced that two thousand trains were operated yesterday and double that number will be run today.

Fifty-four airplanes operated yesterday in distributing mail thruout England.

American sailors were not landed. Admiral Knapp said, until after American and Italian officers who had been sent to Trau had induced the Italian sailors to withdraw from European waters, surprised and captured the small Serbian garrison. One Italian officer and three men were left behind and the American blackjackets were sent ashore to protect them and police the town until Serbian troops could arrive, the admiral said.

The Americans acted. Admiral Knapp continued, at the request of the Italian admiral in command of the Dalmatian coast and the force was withdrawn immediately after the Serbians arrived and took charge.

The commander of the Italian raiders was ordered to trial by court martial by the Italian admiral.

SENATE REJECTS FALL AMENDMENT TO PEACE TREATY

Administration Draws First Blood in Treaty Fight.

Vote Today Considered as Test of Strength.

SMITH URGES RESERVATIONS

Georgia Senator Opposes the Amendments, However.

Tells President Pact Won't Be Ratified Unless Reserved.

Washington, Oct. 2.—Taking its first action on committee changes in the peace treaty, the senate today rejected an amendment by Senator Fall, Republican, New Mexico, to eliminate the United States from membership on the committee to determine the boundary between Germany and Belgium.

Second Also Voted Down. The second of the Fall amendments proposing to relieve the United States from participating in certain international adjustment relating to Luxembourg was voted down without a roll call.

Senator Smith, Democrat, Georgia, got the floor first and presented his reservation. Senator Thomas, Democrat, Colorado; Lenroot, Republican, Wisconsin; and Spencer, Republican, Missouri, announced they would vote against the Fall amendments.

Shows Senate Attitude.
The vote, which generally was accepted as a test of the senate's attitude toward making reservations because of committee amendments of similar nature, was 58 to 30.

Opposing actual changes necessitating resubmission to Germany but declaring ratification without reservation to be impossible, Senator Smith proposed several amendments to the treaty. They should be adopted, he said, to clear up "doubtful or objectionable language."

While only specifying seven reservations, Senator Smith said he believed "substantial modification" should be placed upon the labor provisions, but he would suggest no changes because other senators contemplated proposing a reservation covering that provision.

Senator Smith's first amendment would substitute for the amendment of Senator Johnson, Republican, California, designed to equalize the voting power in both the League of Nations and the League of the League of Nations.

The next three are similar to those reported by the senate foreign relations committee as setting the League of Nations from the League, the Monroe doctrine and reserving the right of this country to control its own internal affairs.

Exclusion From Boycotts.
The fifth reservation covers Article Ten and Senator Smith said the United States could not assume, under Article Ten or any other article, the economic boycott of any other country or in case of controversies between nations to engage in the economic boycott.

The reservation further provides that mandates cannot be accepted for this country without congressional approval. Senator Smith proposed that the reparations commission could not interfere with commerce between the United States and any country except with this country's consent and that all persons filling positions created by the treaty must be appointed by the president.

Amendments to the League covenant also would be ratified by the senate.

Serve Notice on Wilson.
Smith served notice on President Wilson and administration leaders that if they want to get sixty-four votes for the treaty and League of Nations covenant they must work for reservations and not against them.

Might as Well End Hearing.
"If you mean to say that the only solution is to let this strike wear itself out, we might as well end this examination here," Senator Jones, New Mexico, declared.

"Your statement is clear and comprehensive," Gary replied. "You and I will not, because they represent a minority," Gary said.
